About Us

We, Hilex Electronics, are most trusted and appreciated organization founded in the year 2000, at Delhi, (New Delhi, India). We are the prominent and most secured name in the market offering finest quality assortments of Multi Purpose Adaptor, Multi Plug and Cell Charger. The offered electronic items are quality perfect and designed by our most qualified and skilled professionals and experts with the proper utilization of basic materials and cutting edge techniques. Adding to all this, our professionals manufacture this array with out most diligence and hard work in order to keep them as per set quality norms. The offered array is available in many specifications and speculations to keep it as per set quality standards. Furthermore, our team of professionals and experts are highly qualified and hard working in this domain. We too offered this array in customization option. Our offered array of products are highly demanded for its compact design, cost effective rates, durability, quality assurance, rust free and very easy to use.

We are bestowed with most modern and huge infrastructure unit that help us to offer best quality assortments of products at very nominal prices. Our unit is well furnished and well equipped with latest machines. This unit spreads over large area of land. Moreover it is segregated into many sub departments like manufacturing, sales, customers care, durability, quality control, and research and warehousing. All these departments are smooth in working and highly recital in this array. Adding to all this, we have most sincere and qualified managers that handles these departments. All are managers keep a very close and shut coordination with all other managers to keep every business working smooth and chaos free. We are too blessed to have most intelligent and skilled professionals that keep it as per set quality standards. Also, we conduct many training and workshop in order to buff up the skills of our workers as per set market trends and developments.

From our foundations, we are working very hard in order to keep our products high in quality and very economical. Adding to all this, the main focus of our organizations is to offer best quality products at very nominal rates. Customer satisfaction is our foremost and vital motive. We believe that if we want to grow and sustain in this competitive market then we must keep our patrons' base happy and delighted with both out services and goods. We too have a team of quality controllers that keep a close track on the fabrications and keep the quality of our offered electrical items intact and flawless. In adding to it, we make sure that we must keep our customers delighted. We make our customers happy by many factors like quality assurance, cost effective rates, durability, transparent dealing, 24 x 7 assistance and customer centric approach.

Since our establishments in this competitive market, we are working very hard in order to keep it as per set quality standards. Too, we are working under the headship of Mr. Manjeet Singh (Manager). He is most sincere and hard working in this domain. His deep market conformity helps us to offer best quality products at nominal rates.
